

A GUIDE TO VOCES

Practice the language by actually **speaking** it.

Voice-first language immersion. Real conversations, smarter review, lasting progress.

English

Spanish

French

German

Italian

Portuguese

Hallo

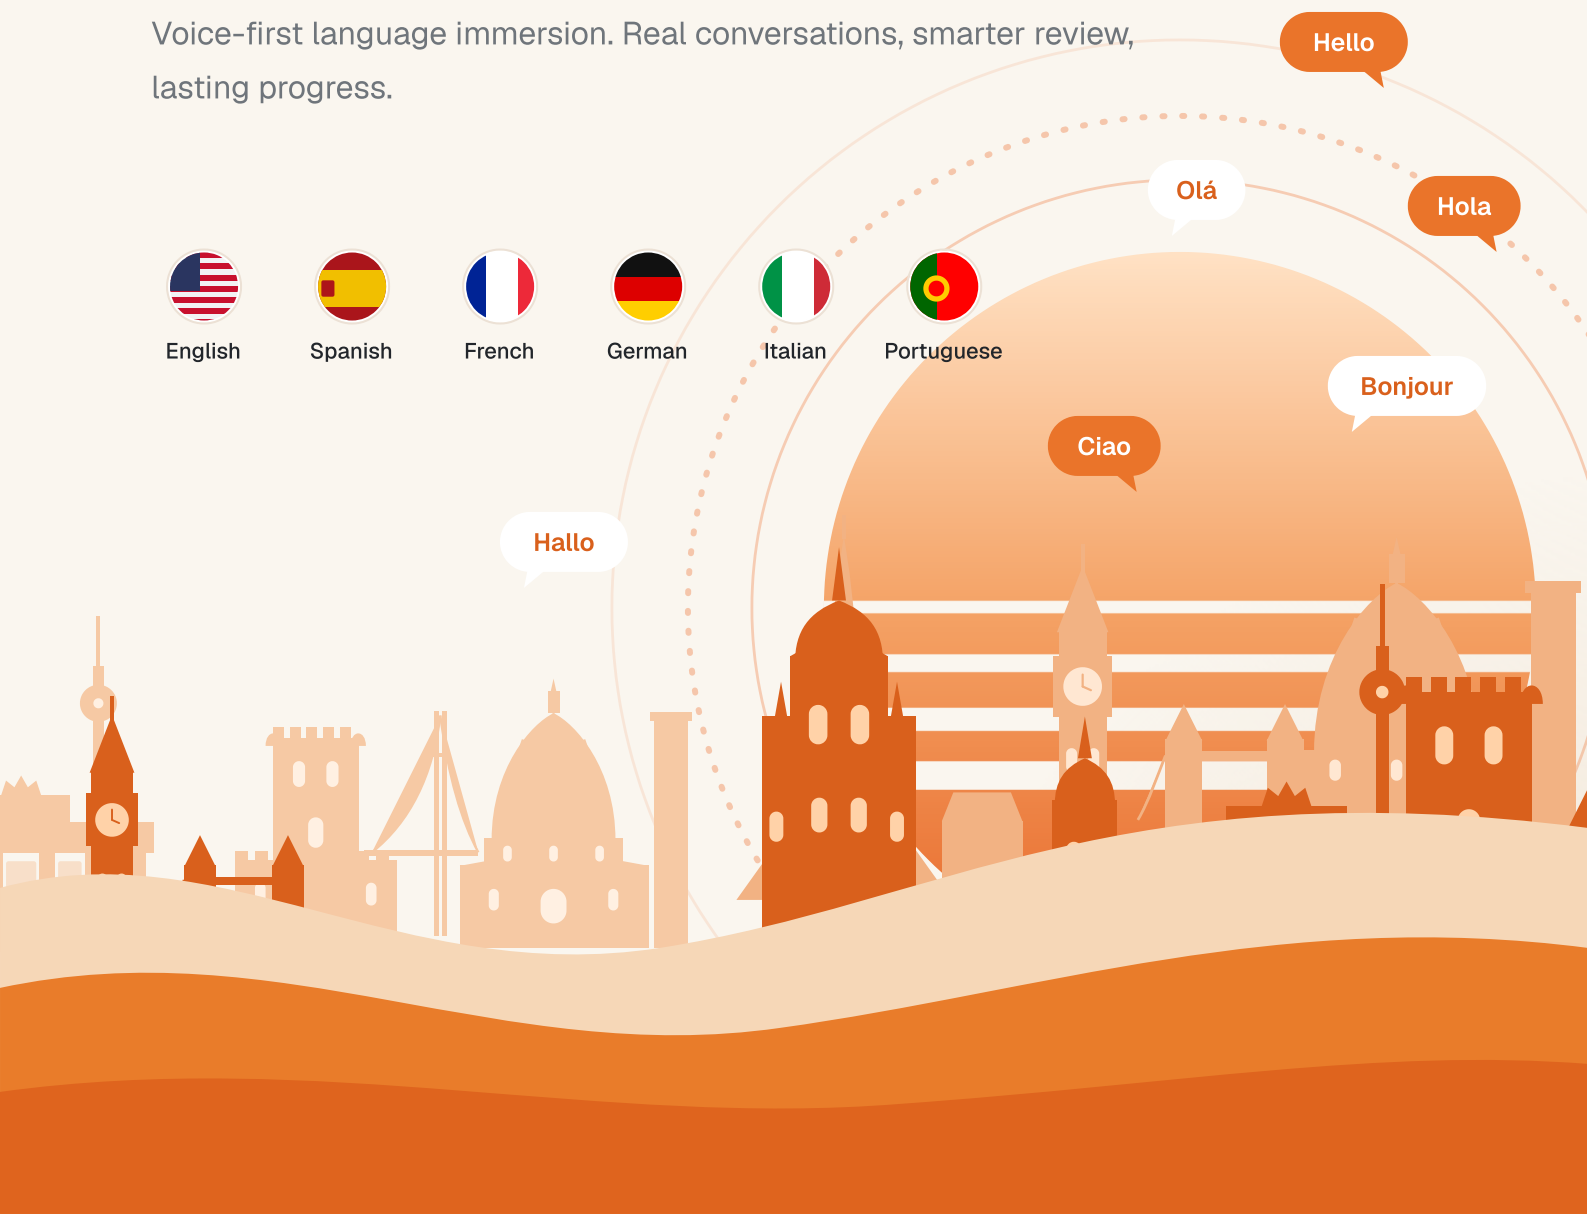

Ciao

Olá

Hello

Hola

Bonjour

HOW IT WORKS

One conversation, start to finish.

No lessons to sit through and no decks to grind. You open a conversation, talk out loud, and learn from what you actually said.

01 · PICK

Choose a language and an opening scene

Six languages to practise, eight scenarios to start from: a restaurant, a job interview, an old friend. The scene is only an opening move. Your partner follows you if the talk drifts somewhere better.

Hola, ¿qué tal tu día?

Muy bien. Fui a la plaza...

02 · TALK

Speak out loud, from the first minute

A real voice conversation with a partner who keeps to your level. Press the mic and answer the way you would with a person. There's nothing to type and no quiz to pass.

la plaza

square

Getting there

03 · REVIEW

Hang up, then read it back

Corrections arrive after the conversation, not during it. Grammar notes, the words you reached for, and new words worth adding, which come back in later conversations until they stick.

Six cities at dusk.

Eight ways in.

Each conversation is set against a landmark from its language's country. Here is how a first line might sound in each.

¡Buenas! ¿Qué os pongo?

Spanish At a restaurant

Hi there! What can I get you?

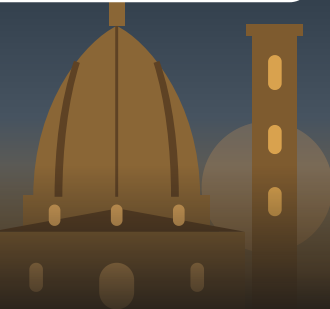

Bienvenue ! C'est votre première fois à Paris ?

French Travelling

Welcome! Is this your first time in Paris?

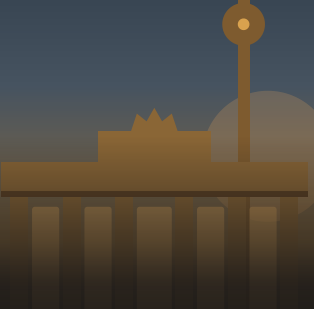

Quanto tempo! Raccontami tutto.

Italian With a friend

It's been ages! Tell me everything.

Hast du kurz Zeit vor dem Meeting?

German At work

Got a minute before the meeting?

Posso ajudar? Procura algum tamanho?

Portuguese Shopping

Can I help? Looking for a particular size?

So, tell me about your last role.

English Job interview

Straight into the interview.

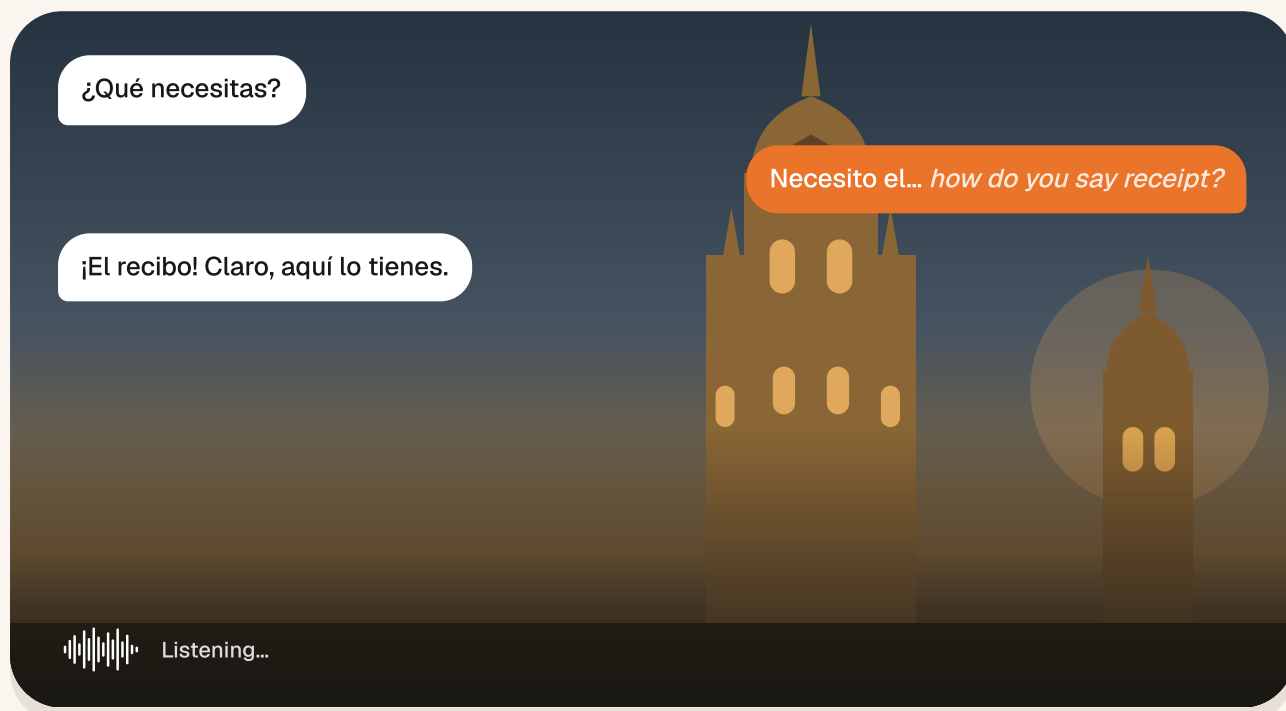

THE EIGHT OPENINGS

- Everyday life
- At a restaurant
- Travelling
- Shopping
- At the doctor
- At work
- Job interview
- With a friend

WHILE YOU TALK

Never break immersion.

Forget a word? Say it in your own language. You stay understood, and the conversation keeps moving.

FALL BACK

18 languages to fall back on

Switch into English, Hindi, Arabic, Japanese and more mid-sentence. The partner picks up the meaning and keeps going.

YOUR LEVEL

A partner who keeps pace

Tell VOCES how comfortable you are, and your partner speaks at that level instead of racing ahead.

TRANSLATE

Live translations, if you want them

Show a translation under each line while you get your footing, then hide them once you don't need them.

AFTER YOU HANG UP

Talk now. The notes come after.

VOCES reads the conversation back: what to fix, the words you had to reach for, and which ones will turn up in your next conversation.

YOU REACHED FOR

fui a la plaza

I went to the plaza

"I went to the Plaza and ate tacos"

GENDER AGREEMENT

Came up before

~~La comida estaba muy rico.~~

La comida estaba muy **rica**.

WORTH ADDING

abarroado crowded

"La plaza estaba abarroada."

+ Save to vocabulary

EVERY WORD HAS A STRENGTH

New

Just saved. It'll come back soon.

Getting there

You've used it, but not reliably yet.

Strong

It's yours. Used well, in conversation.

Replay the recording

Every conversation keeps its audio, so you can hear how you sounded.

Flashcards that listen back

Review saved words, and hear each one pronounced.

A streak worth keeping

Your dashboard counts days talked and words learned.

Your first conversation takes a minute.

01

Create your account

Sign up with your email at vocesverba.site. It takes a moment, and your progress is saved from the first word.

02

Tell VOCES about you

Pick the language you're learning, the one you'll fall back on, and how comfortable you are, so your partner meets you there.

03

Press the mic and say hello

Choose an opening scene, or just start with how your day is going. When you hang up, your review is waiting.
